# About the Global Forum on TB Vaccines

The Global Forum on TB Vaccines is the world's largest gathering of stakeholders striving to develop new vaccines to prevent tuberculosis (TB). Held every two to three years, it provides an important and unique opportunity to review the state of the field, share the latest research findings, and identify new and innovative approaches to TB vaccine research and development (R&D), with the end goal of developing and deploying new TB vaccines as quickly as possible.

The Global Forum on TB Vaccines brings together a wide range of stakeholders from different constituencies with a broad range of research interests. It has grown from 200 participants at the 2<sup>nd</sup> Global Forum in Tallinn to nearly 370 participants from more than 50 countries at the 6<sup>th</sup> Global Forum in February 2022.

## 7<sup>th</sup> Global Forum

The [7<sup>th</sup> Global Forum](#) will be convened in Rio de Janeiro, Brazil from 8–10 October 2024. The Forum is organized by the Stop TB Partnership Working Group on New TB Vaccines (WGNV), IAVI, and the TuBerculosis Vaccine Initiative (TBVI), in partnership with the Ministry of Health of Brazil and the Brazilian TB Research Network (REDE-TB).

This is the first time the Global Forum on TB Vaccines will be hosted in the Americas, at a time of renewed attention to TB vaccine research and development. This marks the same year that Brazil presides over the G20 presidency – the third of four consecutive G20 presidencies held by high TB burden countries.

## Become a sponsor

As we embark on what we expect to be the biggest Global Forum on TB Vaccines yet, we invite you to be an integral part of its success by becoming a sponsor. We offer a range of packages to cater to the diverse needs and expectations of our sponsors. With seven tiered packages, each offering supplemental benefits, sponsors will have the opportunity to tailor their support and maximize their impact.

To become a sponsor of the 7th Global Forum on TB Vaccines, contact us at [tbvaccinesforum@iavi.org](mailto:tbvaccinesforum@iavi.org)

# Our theme

## *Driving innovation from discovery to access*

For the first time in more than a century, new TB vaccines are within reach. The theme for the 7th Global Forum on TB Vaccines speaks to the ingenuity and perseverance advancing the TB vaccine pipeline, from preclinical development to multiple promising candidates in late-stage efficacy testing and ongoing efforts to ensure new TB vaccines will be affordably and equitably accessible to all who need them.

## Cidade das Artes

We're thrilled to welcome delegates to the Cidade das Artes to enjoy our dynamic, three-day program. We extend our gratitude to the Municipal Health Secretariat and Rio de Janeiro's City Hall for providing this renowned venue.

Nestled in the heart of Rio de Janeiro's Barra da Tijuca, the Cidade das Artes is a sculptural landmark and one of Brazil's most important cultural venues. This spacious and light-filled venue boasts state-of-the-art facilities equipped with cutting-edge technology and will be sure to offer a memorable 7th Global Forum.

## Brazil

As a leader in global health research and biomedical manufacturing with a longstanding commitment to vaccination, and also a country with a high TB burden, Brazil plays a pivotal role in the global TB response. Brazil is a valuable contributor to innovation, research, and knowledge sharing and is home to world-renowned biological science R&D institutes, manufacturing facilities, and research universities. Collaborative efforts between Brazilian scientists and global researchers are helping advance the development of new TB vaccines. Moreover, Brazil has a thriving civil society that strives to integrate community involvement in research, drawing on decades of experience in vaccine clinical trials, including for HIV.

## Rio de Janeiro

Rio de Janeiro is a vibrant and diverse metropolis, which has long been a hub for culture, scientific learning, innovation, and social progress. Rio de Janeiro's spirited culture and scenic beauty will provide an inspiring backdrop for the Global Forum. Attendees will have the opportunity to experience the warmth and resilience of this city while forging partnerships, driving scientific exchange, and generating momentum to advance TB vaccine development.
